# PRIDE

Kankakee Valley Junior-Senior  
High School  
Wheatfield, Indiana Volume 1

# Education is a living thing.

It breathes and listens and laughs and grows with the people it touches. It is found wherever there are people looking for it. We found it in August when our boys started training for football and cross-country.

right: DeMotte High School stands undaunted by the August sun.

center: The cardboard boxes and folding chairs stored on the stage didn't affect our music lessons as much as Mr. Bialon's great sense of rhythm.

far right: Mr. Vencel made a home for his kids in the science room at DeMotte through the hot summer weather and the chilly winter winds.

above: Many lovely maples shade the town of DeMotte. This one provides a good spot to eat lunch when the day merits it.

right: Joan Hamstra, Lois Duttlinger, and Rich Fulaytar make the long trek to the Catholic Church for their class in government.

People looking for an education need a home. We found our first home this year in DeMotte. The school, the American Reformed Church, the Catholic Church, the Legion Hall, the whole town opened itself up to us and offered us an opportunity to grow. We took it.

Yesterday's chairs welcome  
a student's body  
almost as heartily  
as today's chairs do.

Antique surroundings don't cramp a person's ability to learn. I'll admit that DeMotte High School has seen better days, but the "school" isn't the building, it's the kids and teachers and books and songs and games and pencils.

above: Mrs. Yeoman presents a filmstrip to her freshman girls showing them the secrets to nutrition and other things culinary.

right: Debbie Risner discovers just what she wanted from among the paperbacks in the Audio Visual Room.

left: Joan Hamstra, Cindy Mak, and Karen Toppen ponder the more humorous aspects of our American government in the Catholic Church.

### Kougar Pride

Football practice is rough and tough and horrifying and every football player has to go through it. What do you think about it?

Tom Morris:

When we start out it's really rough because you've been kinda lazy all summer, you're not really ready for it, but you start just where you are, running on the pads and jumping on the ground a lot, and starting to get used to getting hit a little bit. We separate the backs from the line, then the line starts to get their blocking assignments down, and their blocking calls so they can function properly together. While this is

going on, the backs are down getting used to handling the ball again. Then we start on the back-field and combine it with the line. And with this, we always have calisthenics, warm-up before practice, and a warm-down after practice, to get in condition for the games.

Kougar Pride:

What kind of relationship did Coach Hamacher strike up with the boys?

Tom Morris:

He had some different ideas on offense and defense which were quite new to everybody in the area, because he came from a different section of the state. But

personally, we think he rode us a little too much. But since we came out with a winning season, five conference wins, no losses, we figure it was worth it. He made us work hard. There wasn't any horseplay at all on or off the field where football was concerned. He'd tell us how he wanted it done, and we'd do it that way. But altogether working with him was OK. We had gripes; he had gripes. And we usually ironed them out his way. But that's why he was coach and we weren't.

Kougar Pride:

Compare our home field with the other fields you played on this season.

**Tom Morris:**

Well, the field at DeMotte would probably have been a rather nice field if they had sloped the field just a little bit so the water would drain off, and the grass could stay green. The lighting is really good on the field. I believe it's one of the area's best lit fields. We could probably have used a good scoreboard. We couldn't use the one we had because no one could operate the numbered cards.

**Kougar Pride:**

Evaluate our competition this year, Tom.

**Tom Morris:**

We started off with South Newton.

I really wanted to beat them. Our team wasn't together yet, so early in the season, and we lost 7-14. Anybody who faced Harrison on the playing field shuddered. But we went down to East Tipp to play them. Harrison is nothing but a meat-eating mammoth team. They are completely out of our class. I think Kankakee Valley will be ready to play them in, maybe, five years. When we went up to North Judson, we weren't ready. We know when we're ready, and the coach knows. They played East Gary and stomped them. We played East Gary and lost 14-0, on our homecoming. East Gary had two lucky breaks

and they took them. Otherwise we were even with East Gary for man-size and ability. When West Central came up to play us, they thought they could beat us with no trouble. They thought we could never beat them, so they'd just have some fun with us. But we cracked down after the first quarter and played football. They wanted more fights; we played more football. We beat them miserably. We got the traveling trophy and the conference.

left: Coach Hamecher hangs loose during the football season. He really trusts us.  
below: The local savages take over the football field, to the strains of the school song before the game.

center: Healthy, but harsh, criticism keeps a football player on his toes.

upper left: Coach Daigle patiently awaits the outcome of a winning play.

lower left: Half a football game is spent waiting, as Joe Doris and Butch Jungels can tell you.

## Kankakee Valley Football

above: Dale Hamacher is a winning man.  
left: It takes more than unbearable cold to chill the spirit of a cheerleader.  
bottom: Martin Bell points the way to victory for his boys.

A lot of dirty work comes before every glory, the hours a football team spends on the practice field are long and grueling. Wins come, but so do losses. Teams help us to take both in stride. But, somehow, the little things (like being All-Conference champions) seem to make up for the trouble.

The kids get together and give the community a team and a queen. The alumni come home to remember their high school days and watch yesterday's little kids play ball. But we have no alumni; we have no yesterday. Just today's memories and a lot of tomorrows. We can hardly wait.

## Make-Believe puts

High school students lose the art of making up good games that is so native to six and seven year olds. But with the help of a good playwright, like Hartzell Spence, even WE could make the little kids laugh at our make-believe.

## fun in learning.

They liked our music, too.  
The magic fingers of Mr. Bialon  
gave life to pianos and other  
things musical.

The stage band, here featuring  
George Grevenstuk, Audrey Rui-

life to Mr. Bialon.

They come in ones, twos, families, and teams. They come in mobs and societies. But this is

certain--they come, they laugh, they eat together, and they run for all they feel is worthwhile.

You know, everything can be expressed in terms of numbers. One blackboard + one Mr. Taylo = x geometry problems. One Mrs. Alderson - x club treasurers = one serene lady.

One Mrs. McCluggage + 14 phone calls = 13 messages + one disaster . Two boys + one "brown algae" biology chart = one giggle + two groans . One Mr. Barnes x five Spanish classes = muchos estudiantes del espanol .

# Andy Lawyer on Basketball

Kougar Pride:

Andy, what part did you play in the team that was number one?

Andy Lawyer:

Well, I just feel that I was one of the team and helped as much as I could. I played forward and center most of the time.

Kougar Pride:

What were the big advantages that we had defensively?

Andy Lawyer:

We had a tremendous height advantage over many of our opponents. And as far as that goes, our rebounding and everything was improved by this. We had some great guards that gave us enough speed to break fast and not be just a slow team.

Kougar Pride:

What kind of a coach is McEwan?

Andy Lawyer:

Well, I would say, Coach McEwan is a nice guy only if you put it to him, only if you do your job. He expects you to do your best and if you don't, you'll hear about it.

Kougar Pride:

How did our opponents affect the way we played this year?

Andy Lawyer:

As far as opponents are concerned, those opponents that give you the hardest time are those you learn the most from. These opponents can teach you what you are doing wrong and I believe it's more fun to beat them when you have to work hard to win. When we played Pioneer and South Newton two nights in a row, and we beat them both by one point, these were two games we really had to work in, and we really felt that we accomplished quite a lot that weekend.

Kougar Pride:

How did you feel about playing in the sectional this, your last, year?

Andy Lawyer:

The sectional is the last step of the ladder. This is what you prepare for all season and this is the high point of it. During sectional time, your previous record doesn't count, because in sectional play, everyone does better than they've ever done before. Since we were the big team in the sectional, you really can't say how you feel when you walk into the gym and half the crowd stands up and cheers and knocks the roof off, and the other half stands up and boos. It really makes you want to fight and win. You hear this and you feel like you can't be beat. And it helps your morale so much more than anything else, because you know that these people are supporting you and you know that they want you to win and you just can't let them down, so you're going to do your darndest to win. The boos help almost as much as the cheers, because this makes you feel glad that you know that there are people that hate you, and you just want to show them that you are the best.

Kougar Pride:

How do you feel about what our athletic program has done for our school this year?

Andy Lawyer:

I believe athletics played an important part in consolidating the two schools. In athletics, you have a team and this is something to support. This is your school showing its ability. And when a team accomplishes something, the whole school accomplishes something. I believe this year, athletics accomplished quite a bit. They showed a lot of strength; and I believe the students united behind this. It really helped to bring the two schools together into one great school.

## Basketball made us one

Basketball really made our school one this year. How can two kids who back the same team not get along? Our season helped, too. The local talents swept up the Midwest Conference and Sectional, and with a defensive average of 55.9 points per game, placed sixth in the state. What do we feel? PRIDE.

Few people here worked as hard as our Cougar Grapplers. Ask any of the local savages. They'll tell you how difficult the spin drill is. For all their work, they ended up with a 2 and 9 season. But for the first year for an entire team, we think that's pretty good.

# An Interview with Stan Ketchum

Kougar Pride: First, what was the high point of your season?

Stan: Do you mean personally or just for the time?

Kougar Pride: First, try personally.

Stan: Well that would have to be when I won the conference, I started wrestling and I kinda didn't do so good, because I just really didn't care one way or the other. Then I came back after Christmas vacation and I asked Coach if I could get enough to wrestle in the varsity team and he said, "ya" and so we arranged it and I heat him and then after that I didn't lose any meat but then, we came to the end of the season and we had our Midwest Conference meet and I won that and I think that would have to be the high point of the season for me.

Kougar Pride: They say a lot about wrestling practice, how it wears out a guy down. What's the worst part of practice?

Stan: Well, it varied with the season. First part we really hard thing, was pushups, because that we weren't in shape. We thought we were but found out we weren't and I guess pushups would have to be the hardest thing at first and then towards the end running up and down the stairs from the top floor to the bottom was bad, too. But I suppose towards the end it would be the spin drill. That's where one guy gets on his hands and knees and the other guy gets his, puts his chest on the other guy's back and spins him around back and forth and that's to build up your endurance and it does, that's have to be the toughest one.

Kougar Pride: During practice Coach Nimpse I bet was a real inspiration to you guys. How was he as a coach this year?

Stan: I think that I never had a coach any greater than

Coach Nimpse, because he didn't really try to push anybody being on what they could do he left it entirely up to you if you wanted to wrestle if you had the desire, and you really wanted to do it then you wrestle and if you didn't then you just ya because you're not in shape then you wouldn't ruin any meets and you don't get your major so its entirely up to the individual. Then at any time he said that we felt we were good enough to take the person at the top we felt on our weight division we felt we could beat them, he said well then just go ahead and so that's how I finally got a spot on the varsity that I could challenge my men and I beat them. Just like Coach said he was really great he just acted like just one of the guys he everybody got along with him and I think, I know everybody on the team just thought he was a great Coach.

Kougar Pride: You said that the high point of your season was when you won the Midwest Conference, what was the high point of the teams season?

Stan:

I think that would have to be when we won our first meet, one of our two meets we won this year. We only won two but that's pretty good for a first year wrestling season. We beat South Newton and I suppose that's the day we threw Coach in the shower with his clothes on and it was really great I mean, everybody thought it was really fantastic we were just so happy to win.

Kougar Pride: You won only two meets this year, how many did you lose?

Stan: I'm not sure how many we lost, it was probably 12, 12 or 14, or something like that. And it was really bad that Coach never told us

anything to get us down because he kept telling us that the first year we really couldn't expect that much and he would be glad with whatever we could show him and knew we were trying and we did have a lot of individuals win a lot of matches this year and he says this year is to get the rest of the program started and in the future years we'll probably do a lot better.

Kougar Pride: How did you guys do in sectional?

Stan: Well, sectional we didn't do too good. Dave Rayne is one of our better wrestlers this year. He went farther than anybody else and he went, he went 3 meets in their sectional which was pretty good and the rest of us I think, I the rest of us all got shut down in the first time we wrestle, because we were playing school up there that were pretty tough.

Kougar Pride: Weight divisions, now that's a tricky question, only in wrestling, Stan what weight division are you in?

Stan: I well, right now, I weigh about 155 but I wrestle about 143.

Kougar Pride: Your best wrestlers then are what: tall, short, skinny, wiry, what?

Stan: I'd say, you can't be, I'd say, well I'm not sure, it doesn't really depend on your build, it depends more upon your mental attitude and how fast and how good you are. Since you're wrestling a guy your weight class and generally your own build, and your own strength, it surely doesn't depend on a who's stronger or that much, it depends on who's the fastest and who's more prepared for the match. It depends like you can move the fastest and you get more endurance on your opponent then you're going to win.

The National Honor Society was a Moving group this year. After it moved in from Wheatfield, its first order of business was inducting the DeMotte seniors and juniors who qualified for membership. After it got organized, it flooded the community with light (bulbs) and took off for New York on its annual trip. A grade point average seems a lot easier to maintain when it can give rise to so many advantages.

## The NHS expands with the school.

New members are welcomed into the society by the old members during initiation. This group recognizes the outstanding students of the area for their leadership, scholarship, service, and character.

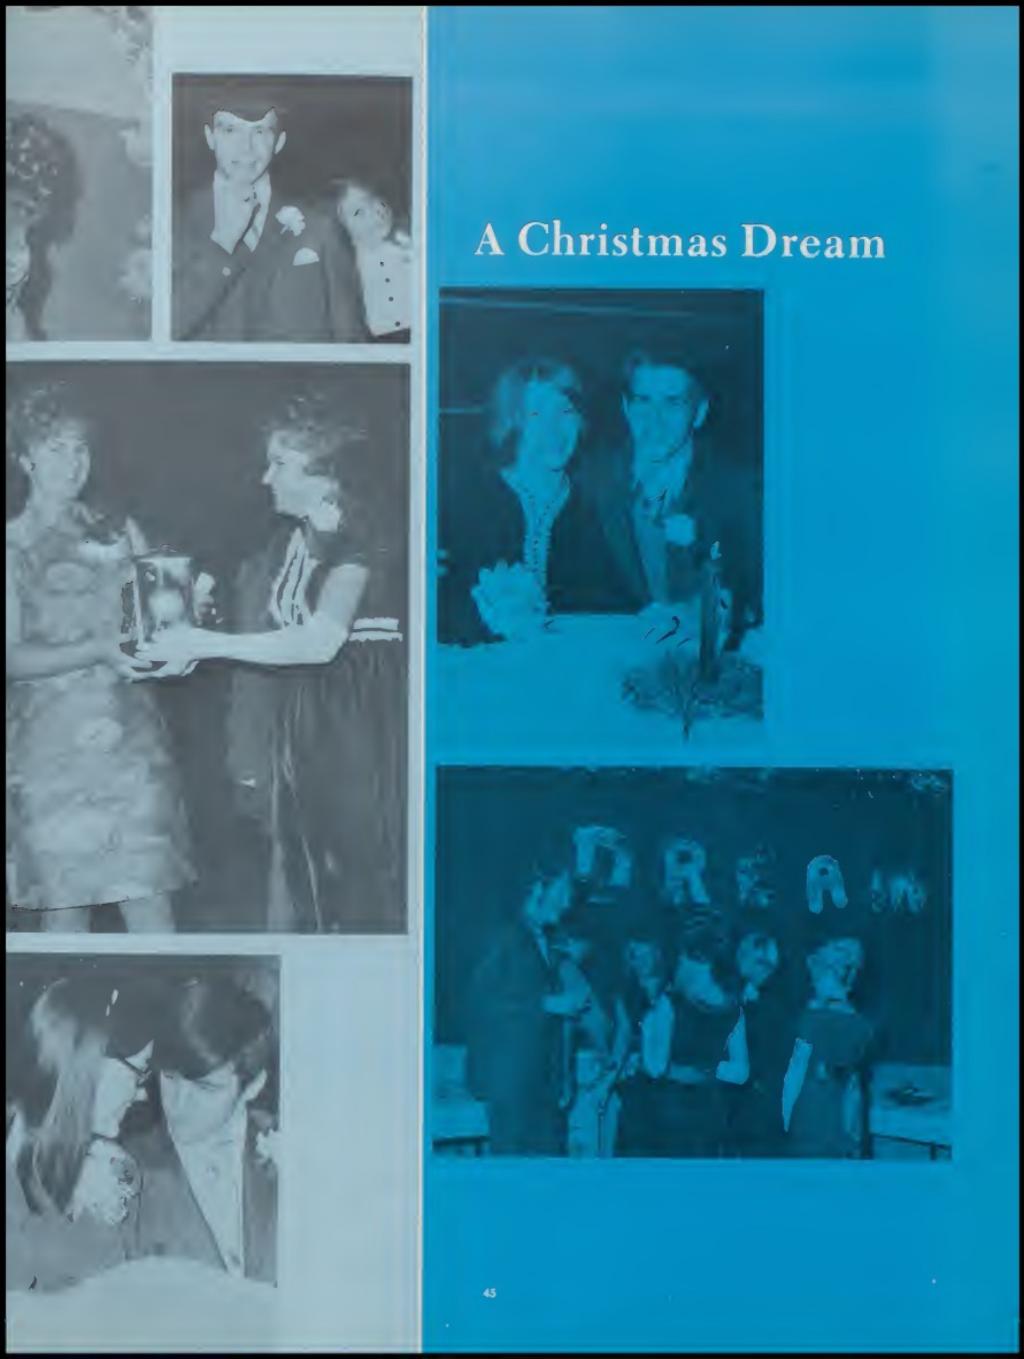

Santa Hamacher rewards Rich McEwan for his fine behavior this year with a whistle to make himself heard.

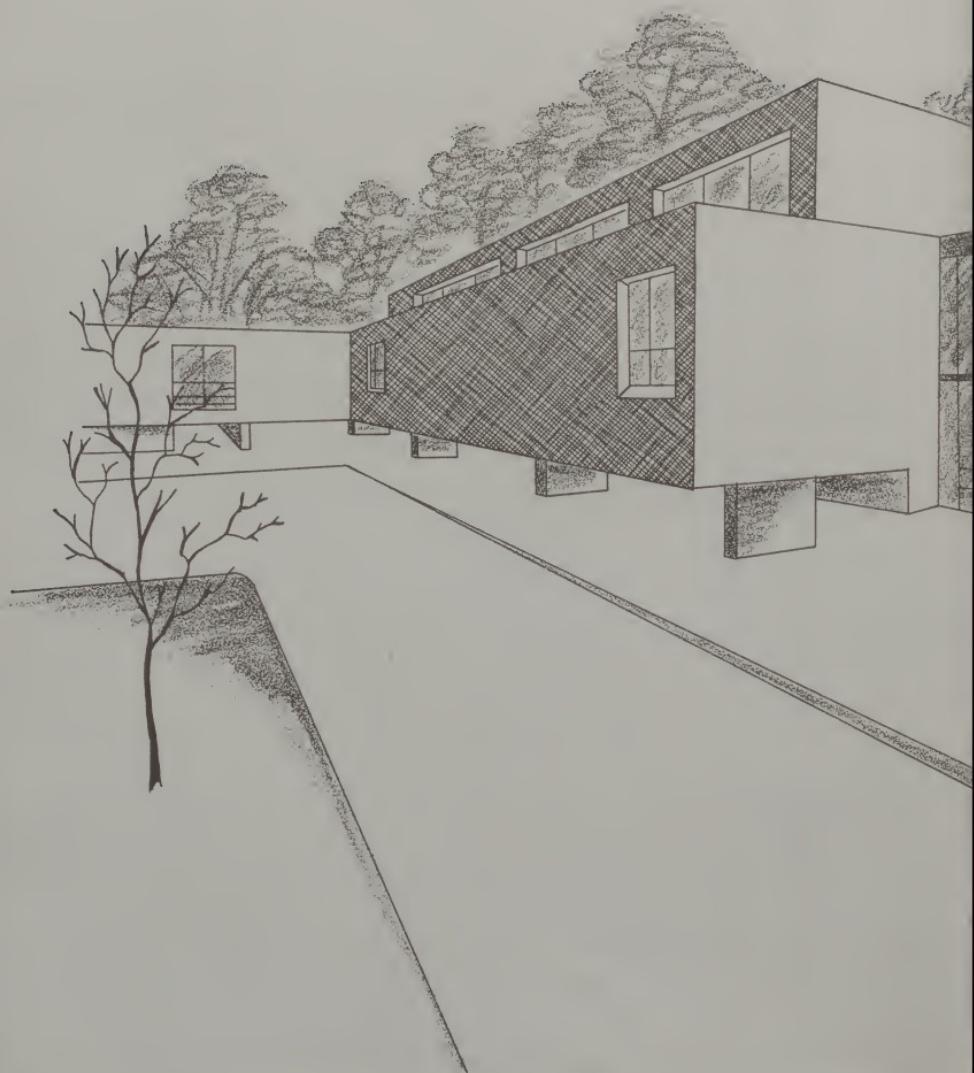

The students and faculty were entertained by the Student Council at the Christmas Party this year. The Student Council put on various skits, and the afternoon was made complete by a visit from Santa Hamacher and his two elves. We listened patiently to a hard rock group imported especially for the occasion. But they were so loud that only the most resolute lasted the afternoon. To finish the program on a happy note, Mr. Bean led the faculty and student body in singing some gentle carols.

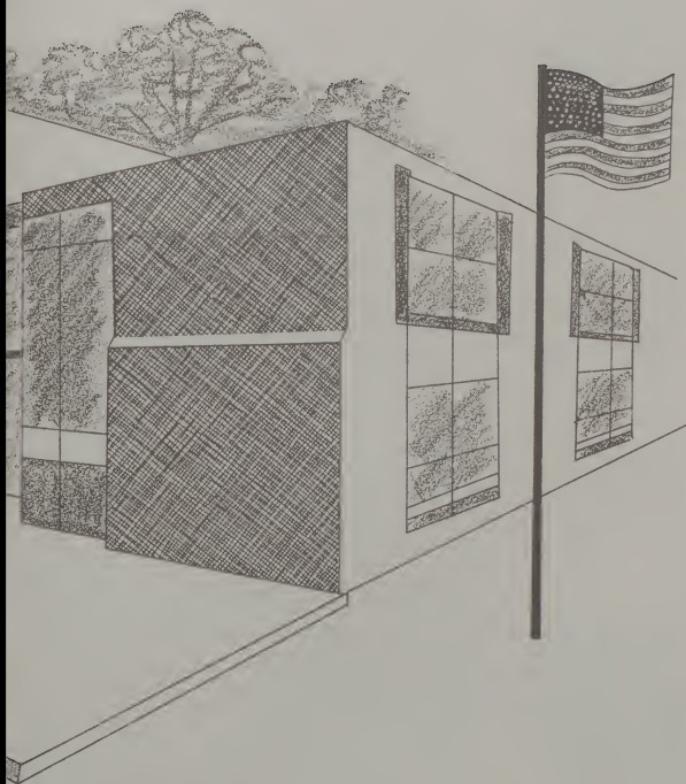

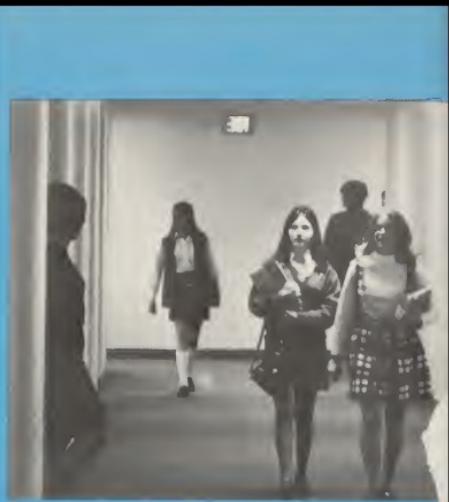

## A Christmas Dream

Classes take up more time and less concentration than any other student activity.

There are ping pong tables in our halls. Kids can't help but find them. In our new home we can do many things that we couldn't think of doing in DeMotte or Wheatfield. We have free hours. Not study hall, necessarily; just free hours. Here we study harder, but we play harder, too.

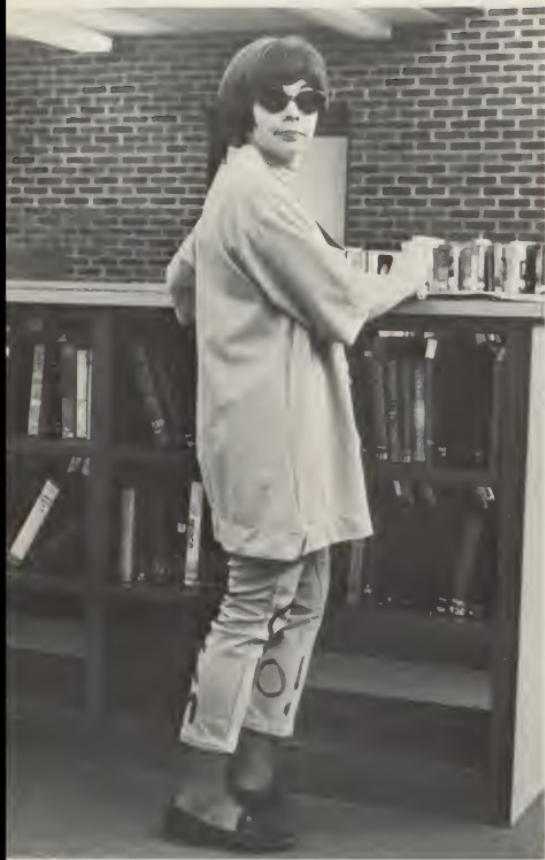

We learn by listening, thinking,

watching, reading, and by

**DOING.**

Education takes two. One to teach and one to learn. Not all of our teachers are faculty, and not all of our learners are students; and we like it that way.

Dress Down Day was a real riot. Some of the clothes worn must have been dug out from under a rock or something, because no one could possibly own clothes like that. The sounds of excitement echoed through the halls as sectional spirit rose from the clatter.

## Sectional spirit builds

## Kougars take a Sectional Victory.

The spirit train made its way through the halls, up and down the stairs, and through the courtyards with the help of cheerleaders and band members. Posters and a pep-talk added to the excitement.

From start to finish, the games were clearly ours. The fans scrambled out of the fan buses and cars, and our boys ambled out onto the floor. We backed them loudly; everyone knew that we were number one.

## Daddy Date Nite

Sunshine girls, like all girls, are many-faceted creatures. Besides being charitable, they are also fun-loving. Daddy Date Nite was their gift this year to their fathers. Supper was followed by some wild entertainment. The girls used their persuasive facet to coerce the guys into putting on a fashion show. Some of them were enough to strike fear into the hearts of courageous men everywhere.

The student council made many important decisions to get this school running that few people know about. They gave us school colors (red and white), a name (Kougars), and a school ring and crest.

They keep the student lounge in order and stock it with the entertaining things found there. They have also made the rules that govern the students throughout the day (with the help of Mr. Blad, of course).

## James F. Moore: Superintendent.

This is the last year that James F. Moore will be with us as superintendent of our school corporation. He has been our leader in the area since 1961, when he became superintendent of all the schools in the county. In 1965 the county was divided; and DeMotte, Wheatfield, Knian, Fair Oaks, and Tefft became the Kankakee Valley School Corporation. He stayed with us and put us on the road to the dramatic improvements to come. In 1965 our five schools totaled only 1650 students. Now, in 1971, our corporation serves roughly 2200 children. The climax of his career came with the first day of classes here in the new building on February 5th. Mr. Moore worked harder in getting this building for us than anyone else could have. When asked what he would most like to be remembered for, he replied, "I really don't know. That's something you just don't think about." Well, we know what he'll be remembered for, and this building stands as a living monument to him.

## interview with Kenneth Blad, principal

Kougar Pride:

Mr. Blad, the principal is the "big man" at any high school. Please tell me about the work you do that the student never sees.

Kenneth Blad:

Well, I think the work is really diverse. Most students and parents think that the role of a principal is basically discipline, and this is perhaps the least important duty. This is probably the most misunderstood concept in education. I think that the most important role of the principal should be that of a curriculum innovator. He should be someone who deals with the improvement of instruction in the high school. I think that it really is a sad commentary on the job itself that there is such a mistaken impression of what the principal's job is. Perhaps, throughout the entire country, most principals are doing other kinds of things just about anyone on the street could do. His role should be that of one who deals strictly with educational problems.

Kougar Pride:

You are the middle man. You get it from all sides -- the kids, their parents, the teachers, the school board. What would you say is your toughest relationship?

Kenneth Blad:

I would say that, without question, would be the role of dealing with parents of students. I think that this area involves something that is so complex that it's very difficult to understand. The biggest problem is to deal with the parents of children who have been disciplined in some way. Every parent will tell you that he is "for" strong discipline in the high school. Unfortunately, that really means that parents are "for" discipline for everyone else's children but not for their own. I think this is a pretty basic concept you deal with as a principal, and the most difficult to handle.

Kougar Pride:

With regards to facilities, you've had both extremes this year. We've gone from a really poor classroom situation to what may

be one of the best schools in the state. How has the big move affected the administration of the school?

Kenneth Blad:

It's been one of the most difficult things to deal with all year. I believe in having things pretty well organized, and it seems to me that this year has been nothing but shambles. First of all, we started off at the very worst extreme possible by having kids spread all over the two communities of the corporation. We had classes in various churches in town, in the public library, in the legion hall, and so forth. It just seemed that we organized things over there, then it was time to move here. Just as we got a little organized here, the end of the school year had come. I'm sure, not just for the administration, but for the students, the teachers, and everyone, I question how much education has taken place this year in our school.

## The organizers

Behind the scenes of any organized group of people, there are the organizers, the ones who can keep the wheels rolling through rain, sleet, and rumblings from the state. Our administration is terrific. Maryanne Alderson can keep extracurricular accounts plus all the general school moneys in order single-handedly. Janet McClugage runs our main office smoothly and with a minimum of disasters. Wayne Crawford is our assistant principal. Even the hard cour find it hard to lie to him. What's even more spectacular, he's a nice guy, too. Mr. Jones is the source of knowledge for the school life that isn't classes. His little office is the center of athletic life in the school.

## Those who lead

find a welcome at our school. More than a thousand people who are just slightly confused most of the time can always use a good leader. These two ladies have tried to keep up with us and the rest of the state all year. And for their wholehearted efforts they deserve our thanks.

CAROLYN L. RICHARDSON acted as our counselor and taught general science to jr. high students.

DAN KOENIG taught government and Indiana history. He directed the Audio-Visual Department, sponsored the sophomore class, and sponsored this yearbook, "Kougar Pride".

the Audio-Visual Staff. ## Stored knowledge

Miss Wolfe cares for the vast amount of written information housed in our library. Some miraculous system of hers lets her know where each of the volumes is kept each day of the year. Sight and sound add even more than the written word to any classroom situation. Our audiovisual department is complete with equipment, available films and tapes, and Dan Koenig. He runs the show capably and well with the assistance of his AV Staff.

ROSE WOLF is the head librarian.

the Library Club. FRONT ROW: Tanya Williams, Donna Majors, Charlotte Majors, Kathy Hallam, TOP ROW: Beverly DeHaan, Margaret Rice, Brenda Lewis, Kathy Erwin, Jennifer Koster, Carla Caldwell, Lilli Castle, Norma Haring, Rose Wolf (sponsor), Cynthia Mak, Kathy Sanderson, Flora Sanders, Crystal DeBoer, Kathy Nannenga, Peggy McKim, Debbie Hines.

ROLAND F. MARTIN taught U.S. history, Indiana history, and geography.

ROBERT NIMTZ taught values and issues, and U.S. history. He also coached the wrestling team, the track team, and the jr. high football team.

## We studied people.

The people from long ago world history and not so long ago U.S. history. The people of today in psychology and sociology.

LYNN NIMTZ taught world problems, earth and space science, U.S. history, and geography. She also sponsored the senior class and the Pep Club.

CONNIE FLICK taught psychology and physical education. He also coached the freshman football and basketball teams.

REV. WILLIAM BEAN taught government, economics, sociology, world problems, and world history. He also sponsored the freshman class.

LYNN LARY SAKEL taught geography, world history, and sponsored the Future Teachers of America.

## The people department.

ROBERT LEWIS taught U.S. history, Indiana history, and geography. He coached the baseball team, the eighth grade basketball team, and the jr. high football team.

THOMAS J. BOLKA taught world history, psychology, U.S. history, sociology, and English. He coached the elementary basketball team and helped make our first attempts at inter-departmental team teaching successful.

St. Joseph's College gave us this student teacher for a short while.

VERAL HANGER taught English and practical English. She also sponsored the Student Council.

## We've come a long way

since the ABC days. Our English curriculum shows it. Our field of choice in the English department is astounding. We've still got English I, II, and III as a foundation. But we now have many subjects that complement them beautifully.

JOSEPH A. MCFARLAND taught English, creative writing, and humanities. He also sponsored the senior class.

SANDRA LEE MCFARLAND taught English and novels.

THOMAS CREGER  
taught dramatics,  
English, speech, and  
journalism. He also  
directed our first  
high school play,  
"One Foot in  
Heaven".

EVELYN AMACHER  
taught English at the  
high school and jr.  
high levels.

MARIE KING taught English.

DALE M. OSBURN taught  
English. He also partici-  
pated in some of our ear-  
liest attempts at team-  
teaching.

## A study of life.

Humanities was a class of ancient cultures taken advantage of by twelve students in the course of the year. Speech and journalism found many students ready to improve the faulty communications of today. Many other specialized areas of English were offered to students this year. English literature, novels, creative writing, drama, practical English, business English, and good old English IV worked their way into the student body. That's what you call mind-expanding.

JANICE MERRITT  
taught English, geography, Indiana history,  
and U.S. history.

## Business magnates

of tomorrow can get a running start on the future in our business department. With courses like business machines, business math, business English, and business law, in addition to all the old standards in a business education, one can easily graduate to an exciting career in the business world.

JERRY J. HALE taught bookkeeping, typing 1 and 2, and business math. He also sponsored the junior class.

MARTIN BELL taught business law, business math, general business, and jr. high math. He sponsored the Letterman's Club and coached the varsity football team and the freshman basketball team.

DIANA ZACHER taught business English, business machines, office practice, typing 2, shorthand 1 and 2. She sponsored the sophomore class and the school newspaper "Kougar Tales."

HERMAN W. WALDEN taught bookkeeping, consumer economics, general business, typing, and salesmanship. He also sponsored the National Honor Society.

## Souffles,

pacifiers, and rayon are the home economics department's specialties. After the jr. high years of home ec., there are four available years of home economics. Janet DeVries is the cream of the crop with the Betty Crocker Homemaker of the Year Award. In growing communities like ours, homemakers are a valuable commodity.

CAROLINE OLSON taught home economics at the jr. high level this year.

CHERYL KAPER taught high school home economics and sponsored the junior class and the Sunshine Society.

ELIZABETH A. ZIMMER taught home economics for the high school.

SHIRLEY ANN YEOMAN taught home economics and sponsored the Sunshine Society.

# Hands.

Take a little nothing and a trained pair of hands. Anything from a paper spindle to a lawn chair might take shape. The voca-

tional shops bring metal, wood, and machines to the questioning fingers of boys who might find a livelihood hidden there.

J. D. FOSTER taught vocational agriculture and sponsored the Future Farmers of America.

RON HINE taught woodworking and coached our golf team.

RICHARD HERSHMAN taught drafting, metals, and power mechanics.

## Bodies.

Where would we be without them? A strong body, well cared-for, is an asset to us all. So, while we're young and pliable, we work at shaping up America.

CHARLENE GROET taught physical education and sponsored our cheerleaders.

RICH McEWAN taught physical education, health, typing, and physiology. He coached our varsity basketball team.

MRS. DORIS MYERS taught art and sponsored the freshman class and the art club.

CONNIE TIMM taught art at the jr. high level.

ART CLUB. FRONT ROW: Ruthann Curtiss, Donna Glisic, Lisa Halliwell, Christine Lapatkin, Margaret Whitaker, Judy Duggibley, Lana Myers, Kathy Peregrine, Laurie Eakin, Cindy Stalbaum, Sheila Carmichael, Janet Haneway. WILLIAM BARNES taught Spanish and sponsored the Spanish club.

## Self expression

Culture. Eastern culture, Western culture, African culture, our culture. Our beautiful new school is full of it. An enormous, well-equipped music department took the place of classes on the stage. Our foreign language department is complete with classrooms and labs with booths, headsets, tapes, and turntables. The art department is so well-equipped that poor Mrs. Myers will be in a state of shock for another year or two. People who have experienced this school can't help but be more broadminded about the world around them.

WILLIAM D. BARRETT taught French, economics, and U.S. history. He also sponsored the French club and the chess club.

STAGE BAND. FRONT ROW: Laura DeYoung, Myron Miller, Julie Spurgeon, Diane Sipkema, Norma Haring, Gloria DeVries, Mark Boer, Emma Haring, Julie Peterson. SECOND ROW: Jeri Anderson, Dale McMahan, Dan Horton, Audrey Ruisard, Karen DeKock, George Grevestuk, Vicki Nuss, Dave Ruisard, Bruce Przybylski, Mark Dreher, Bob Ferguson. TOP ROW: Cheryl Ooms, Jennifer Koster, Bob Ferguson, Greg Chizmar, Jim Curtiss, Mitch Orsborn, Raymond Mosher, Bob English, Jim Crane, Dan Horton, Dale McMahan, Howard Altman. Missing: Ron Swart, Dave Musch, Ed Pelligrino, Dan Hamstra.

ELAINE HUNTINGTON taught chorus and jr. high music.

CHORUS, FRONT ROW: Mike Rientz, Al Kramer, Charles Corbin, Tom Martin, Bert Howard, Gary Walstra, Gary Liston. SECOND ROW: Randy Gross, Butch Goodin, Larry Wireman, Fred Williams, Dan Zandstra, Bill Recker, Larry Belstra, Marvin Nannenga, Richard Fulaytar, Mrs. Huntington (director). THIRD ROW: Faye Curtiss, Nancy Oeyzer, Carol Glass, Beverly DeHaan, Donna Stalbaum, Jennifer Koster, Cheryl Ooms, Pat Pruitt, Susie McKim, Janet Hanesway, Dave Conley. FOURTH ROW: Gloria DeVries, DeDe Moore, Debra Risner, Marjorie Fredel, Teri Randolph, Donna Chapman, Patricia Wireman, Sylvia Wireman, Brenda Lewis, Wanda Mills, Loretta Simmons, Becky Battles, Gail Frieden, Ruth Knip. TOP ROW: Eleanor Fuller, Donna Hoffman, Doris Stockman, Lillie Castle, Carla Caldwell, Linda Odle, Sharon Conley, Diane Davenport, Karen Toppen, Angela Howard, Kathy Peregine, Pat Odle, Molly Belstra, Judy Calhoon, Ruthann Curtiss.

SENIOR HONOR BAND CLUB, FRONT ROW: Rich Bierma, Lana Myers, Margaret Jones, Myron Miller, Gloria DeVries, Bob Ferguson, Norma Haring, Mark Dresher. TOP ROW: Cindy Mak, Andy Lawyer, Ron Swart, Mark Boer, Bill Hamstra, Bruce Przybylski.

Music students put life into the non-academic school activities. A stage band has been developed, and they played for basketball games and a few civic affairs. The marching band pounded the turf during the football season and the summer's parades. The concert band participated in competition and performed for the community. They are quite enthusiastic in trying to piece together uniforms for the group as soon as they can. The chorus, unfortunately, received the misplaced people who needed extra credits this year, but overall, they had a good group of singers. Many of them participated in contests and concerts.

JR. HIGH BAND. FRONT ROW: Phyllis Compton, Mike Medina, Marla Pruis, Brenda DeVries, Janis Furst, Luanne Caldanaro, Donna Feliki, Cindy VanKeppele. SECOND ROW: Bill DeVries, Brian Liebbe, Dan Martin, Julie Barker, Annette Kosek, Brenda Moolenaar, Jeanie Curtiss, Wanda Smith, Janet Scholtz, Karen Blankenbaker, Anita Goetz, Kathy Spriggs. THIRD ROW: Byron Shull, Alvin Hamstra, Chuck Liebbe,

Steve Compton, Laine Cheever, Kim Hopkins, Jeff Grevenstuk, Debbie Lovely, Pat Justice, Sandy Fase, Cindy Nelson, Lavana Mills, Margaret Stimple, Debbie Nagel. TOP ROW: Mr. Bialon (conductor), Andy Richards, Ken Calhoon, Steve Belford, Randy Ferguson, Charles Riggle, John Britt, Jim Bowers, Karen Richie, John Traster, John Spurgeon, Marilyn Hamstra.

EUGENE B. GROSS taught algebra and advanced algebra in our school this year.

## Numbers and letters and lines

Math is the basis for all science. If a statement can be proven numerically, it's probably true. Here, our college math department shines. From first year algebra, to fourth year trigonometry, we have the best teachers anywhere. When Mr. Abbring explains a "log", everyone in his class sits up and listens.

NORMAN ABBRING taught algebra, geometry, and senior math. He also sponsored the student council and math club.

MATH CLUB, FRONT ROW: Alene Nannenga, Janice Duttlinger, Diane Sipkema, Beverly Musch, Laura Cum, Sharon Daggett. SECOND ROW: Ken Compton, Dinah Kennedy, Cheri Bozeman, Brenda Lewis, Karen DeKock, Beverly Brower, Debbie Yurkovich, Tanya Williams, Kenneth Huhn, Kent Fase, John McIntosh, Tim Mitchell. TOP ROW: Mr. Abbring (sponsor), Ralph Poetma, Charles Boekeloo, Richard Fulaytar, Greg Hohner, Curt Burnette, Phyllis Moolenaar, Cindy Mak, Richard Wallin, Mark Boer, Jon Brouwer, Mr. Taylo (sponsor).

ROBERT F. TAYLO, SR.  
taught algebra, general math,  
geometry, and shop math.  
He also sponsored the math  
club.

RICHARD McDONALD taught jr. high math and sponsored the camera club.

## Basic math

Our students get a tremendous background for high school math through their jr. high math courses. The great teachers add a lot to maintaining an atmosphere that encourages individual thinking.

BOB TILLEMA taught jr. high math.

BEVERLY L. PHILLIPS also taught  
math to jr. high students.

# Explosions

Our chemistry program is noted for its explosions. Mr. Plomaritis' trick with sodium and water is the most spectacular, but many more subtle explosions have occurred this year. The quantity and difficulty of possible experiments have increased with the availability of modern equipment. The number of students involved almost doubled this year.

TIMOTHY D. PLOMARITIS taught chemistry and physics and sponsored the science club.

MR. ROBERT PRUITT gave us general science.

LLOYD VENCHEL taught biology, ecology, and general science. He coached cross country, track, and elementary basketball.

AUSTIN LAWSON presented classes in general science.

Science club. FRONT ROW: Daryl Bierma, Charles Corbin, Steve Wright, Richard Hamstra, Rick Kaluf, Don Goetz, Jack Wierman. SECOND ROW: George Grevenstuk, Timothy Mitchell, John Halliwell, Jim Duttlinger, Greg Pnus, John Compton, Kent Fase, David DeVries. THIRD ROW: David Baggett, Jeff Spurgeon, Sharon Conley, Deborah Yurkovich, Jayne Kruizinga, Barbara Beedle, Betty Terpstra, Shirley Boersma, Virginia VanKeppel. TOP ROW: Charles Boekeleoo, Mike Coffey, Mike Huhn, Steve Sysma, Ed Stockman, Rich Wallin, Laura DeYoung, Earl Bristol, Mark Jaabay, George Riggie, John McIntosh.

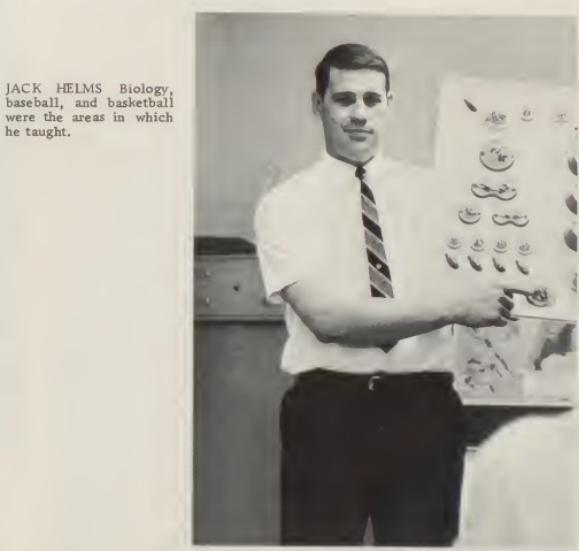

# The life sciences

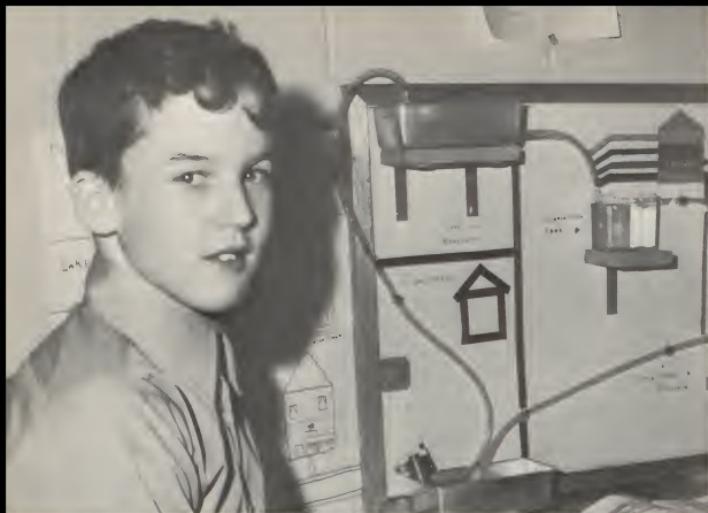

Life takes on new meaning when you've got an inside line on it. And the students in our life sciences; biology, ecology, and physiology; are finding just that. After the beginner biologists became accustomed to the atmosphere of formaldehyde, they found enough inspiration to find even the elusive frog brain. The pigs subjected to dissection gained affectionate names like Herman, Albert, and Hortensia; their masters gained knowledge of their interiors. The ecologists of Mr. Vencel's class were surprised to find that balance and harmony in life can be established even in local ponds like Lake Marstrand. But perhaps the greatest lesson learned by any of the students was that life is worth preserving, worth understanding, worth living.

DALE HAMACHER This year he taught for us ecology, general science, physical science, physical education, and health. He coached the football team, the track team, and the basketball "C" team.

JACK HELMS Biology, baseball, and basketball were the areas in which he taught.

## A science fair evolves . . .

A pet project becomes reality for our science students as mass participation enables us to stage our first science fair. After having been planned and constructed for weeks, the exhibits made their appearances, were judged, and viewed by the friends and parents of their creators.

The science club supper started the evening for the exhibitors and their fans. The festivities were climaxed by the presentation of awards to the outstanding creations.

above: Mr. Plomaritis and Mr. Vencel present their awards.  
left: Students planned, prepared, and served the meal to the community's supporters of scientific progress.  
below and far left: Students stayed with their exhibits to explain the fine points to judges and bewildered observers.

top: Andy and Shannon had a little trouble keeping their crowns on. But they enjoyed the evening anyway.  
above: The punch and cookie table wasn't a lonely place on prom night. The kids did their best to keep their energy up.

We anxiously awaited prom night for a long time. The outer courtyards were gently lit and wired with soft music. The hopeful romantics found their joys of the evening out there. In the cafeteria, the sounds of a hard rock band pierced the darkness. There were little things to nibble on throughout the night, but most of the couples went out to supper that evening. After Shannon Hanley and Andy Lawyer were crowned queen and king of the prom, the feature film started. Some stayed, and some left to finish out prom night with their dates.

Sports has become such an obsession in our school corporation that one might say athletics is the main activity. Academics has become an extra-curricular option. Eligibility keeps our boys in school, and keeps their grades up. Jr. high track team at left.

# SUCCESS: the product of action, not wishing

Graduation is a sad time, no, a happy time. A realization that the easiest, most carefree part of our lives has just passed us by. Some of us will further our educations; some of us will join the exploding work force; some will marry. We're all going our separate ways and becoming individuals. It's a great, but scary feeling. It must be done, sooner or later. On graduation night the goodbyes start. Our friends and teachers are all behind us. We're on our way.

above: Confidence and delight, uncertainty and fright; it's all there in our faces.  
left: Our fans all turned out to cheer us on, to send us off.

above: Now we're in the spotlight, but soon we'll join the background of interested observers.

below: What Father James O'Neill has to say about "Jesus Christ, Superstar" makes sense.

right: These are the men who put it all together.

The social life of a senior gets to be quite exciting. Parties here, parties there. Cars parked here, cars parked there. Some in town, but most in the country. The only bad thing about these good

times are the police. Many seniors will vouch for this. They do occasionally spoil a good time. But overall, there was never a dull moment around town, or anywhere else, with us seniors around.

Ready Mix--Building Supplies

# How To Raise a Juvenile Delinquent

1. Begin from infancy to give the child everything he wants. This way he will grow up to believe that the world owes him a living.

2. When he picks up bad words, laugh at him. It will encourage him to pick up "cuter" phrases that will blow the top off your head later.

3. Never give him any spiritual training. Wait until he is twenty-one and then let him decide for himself.

4. Avoid the use of the word "wrong". He may develop a guilt complex. This will condition him to believe later, when he is arrested for stealing a car, that society is against him and he is being persecuted.

5. Pick up anything he leaves lying around--books, shoes, clothing. Do everything for him so he will be experienced in throwing responsibility onto others.

6. Let him read any printed matter he can get his hands on. Be careful the silverware and drinking glasses are sterilized, but let his mind feed on garbage.

7. Quarrel frequently in the presence of the children. Then they won't be too shocked when the home is broken up.

8. Give the child all the spending money he wants. Never let him earn his own. Why should he have things as tough as you had them?

9. Satisfy his every craving for food, drink, and comfort. See that every desire is gratified. Denial may lead to harmful frustrations.

10. Take his part against the neighbors, teachers, and policemen. They are all prejudiced against your child.

11. When he gets into real trouble, apologize for yourself by saying, "I never could do anything with him."

12. Prepare for a life of grief --you will have it.
